

**PERFORMANCE  
POWERED  
BY  
PASSION.**

A photograph of a server room with rows of server racks. The image is overlaid with a semi-transparent red filter. The racks are filled with server components, and some have indicator lights. The perspective is from the end of a long aisle, looking down the center.

We believe in the power of high-performance computing. Our resources help accelerate vital research to create lifesaving cures, develop new sources of clean energy, model financial stability and more. The faster the world changes, the more researchers need partners with the passion to help them realize the full potential of their work. R Systems is that partner.
